

Need Affordable Health Care for your Children & Youth?

San Diego Kids Health Assurance Network (SD-KHAN) can help! We are an information and referral service to help you find the best quality medical and dental insurance coverage for your children.

Your children 0 through 20 years of age may qualify for no or low cost health insurance even if you work, own a house, or both parents in the home are working.

Eligibility depends on family size and income (Example: Up to \$55,200 for family of 4 persons). Cost may range from \$0 to \$15 per child per month.

These quality health insurance options include:

- Healthy Families
- Kaiser Cares for Kids
- Other Health Programs

REMEMBER: The key to keeping your child healthy is prevention of medical problems. To stay healthy, your children need health insurance that provides:

- ✓ Regular checkups to stay well
- ✓ Immunizations
- ✓ Dental and vision care
- ✓ Prescription medication
- ✓ Medical treatment of illnesses and hospital care, when necessary.

SD-KHAN is community collaboration with the County of San Diego, Health and Human Services Agency, hospitals, health plans, schools, and community based organizations.
